Open Source Software
Development Methods

Linux for Developers

Linux Tools for Developers

Using Git for Distributed
Development

Apr 30, 2024

Abzal Zhuman

has successfully completed the online Specialization

Open Source Software Development, Linux and Git

This certifies that the holder of this "Open Source Software Development, Linux and Git" Specialization can work comfortably and productively in open source development communities; has a good understanding of the Linux environment, as well as methods and tools required to successfully use it; and can effectively use Git, the distributed version control system.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.

A handwritten signature in black ink.

Tim Serewicz
Vice President of
Training
The Linux Foundation
